The Appropriations Committee produces the House's proposed budget and conforming and implementing legislation. The committee provides legislative oversight regarding agency and judiciary implementation of the budget, also reviews the Governor's budget recommendations and agency legislative budget requests, and analyzes trust funds for creation, termination or modification. Additionally, legislation with a fiscal impact is typically heard by the Appropriations Committee or one of its respective subcommittees. Budgetary issues dealing with education fixed capital outlay, state information technology, and state employee pay, benefits, and retirement issues are also within the purview of the committee.

Appropriations subcommittees recommend budgets for their respective areas to the Appropriations Committee. The purviews of the subcommittees are primarily delineated by agency.
